## MISCELLANEOUS.

### COAST ITEMS.

A gray wolf was shot in the street at Billings, M. T., Sunday morning.

The yield of grain in the Willamette valley, Oregon, is better than expectations warranted.

The wholesale firms in Guaymas refused to receive Mexican nickels, and the coins are now at a discount.

The Echo is the name of a new weekly paper started last week at Riverside, San Bernardino county, Cal.

George Ferguson, aged 60, was struck by an engine near Santa Clara, Cal., Friday, and instantly killed.

George T. Bell, sent to State Prison from Merced county for manslaughter in 1878, has been paroled by Governor Stomper.

A gang of thieves infests Modesto, Cal., its members watching for paid-off and drunken farm-hands, and robbing them for their season's wages.

A chicken was killed the other day at Nevada City, in the crop of which was found a long-lost and frequently searched for silver trinket.

W. H. Sears, for the defense, concluded the argument on specification IX in the State Prison investigation, Thursday, with 18 specifications still to go on.

At the preliminary examination of Mollie White at Chico, a strong effort will be made to have the case then disposed of, without holding the unfortunate girl several months in jail without a trial.

Frank Rodgers has been held at Modesto for attempting to smuggle some fine saws and a file into the jail at that place. He concealed them in a watermelon which he wanted sent in to the prisoners.

L. M. Gardner of San Francisco, chief carpenter at the Veterans' Home building, fell a distance of 40 feet while at work Thursday, and sustained internal injuries, which it is thought will prove fatal.

Since the fall of the new pavilion in course of construction at Sacramento, the contractors have found it difficult to procure men to work on it, and the structure will not be completed in time for this year's fair.

There was an old-fashioned street duel in Charleston, Arizona, Thursday, between a drunken man named Michael Anglen, armed with a Winchester, and James Van, armed with a six-shooter. Anglen was killed.

In the Forbestown neighborhood there has been considerable trouble with fire. People have been obliged to work night and day keeping it out of their fences and away from the new flume lately built, leading from the Challenge Mill to Moore's Station.

### TRADE DOLLARS.

When trade dollars were first coined they were made a legal tender for the same amount as fractional silver—five dollars—says the San Francisco *Call*. Many millions of dollars were coined while this law was in the statute books. After a time the legal-tender clause in the law was repealed. Trade dollars were then, so far as the Government was concerned, so much silver. The coinage simply had the effect to put silver bullion into convenient pieces to handle, with a Government stamp certifying as to its weight and fineness. But it is now stated that if Congress does not at the coming session either provide for the redemption of the trade dollar or make it a legal tender, a case will be made up and taken to the Supreme Court, with a view to determine the question whether the law takes away the legal-tender function the trade dollar was originally invested with was not unconstitutional, on the ground that it involves a violation of contract. It will be urged that the coin was received in circulation among the people as a partial legal tender, and that the Government is bound to recognize this function in all the coins issued before the legal tender power was taken away. The proposition to take the case before the Supreme Court without doubt originated with speculators.

### GAINING GROUND.

The theory is being advanced that the lack of water can be compensated by a frequent turning up of the soil. It is held that if anyone sows grain and when it gets six inches high plows it under and sows it again, he can get a good crop. Parties at Auburn, California, are raising corn and fruit in that way. Some claim that all that is necessary is to plow the ground several times, and then sow it. When Nevada's boom comes, we have no doubt that thousands of farms will be cultivated in that way.

A Mormon at Salt Lake, U. T., is reported as saying since the election, that the teachers of that section in the various wards have received instructions to urge polygamy, without restraint, upon the brethren, as the leaders consider that there is nothing specially binding on them in the Edmunds law.

Japan has the cheapest postage in the world. Letters go all over the empire for a cent and a half a piece.

### TELEGRAPHIC BREVITIES.

Two men committed suicide yesterday by drowning at Chicago.

One hundred warehouses have been destroyed by fire at Salonicca, Russia.

Thirty-two persons died from cholera at Alexandria Saturday, including five Europeans.

The Government has received a telegram announcing that the cholera is epidemic at The Hague.

Four of seven operators who went out on the strike at Oswego, N. Y., returned to their keys this morning.

The St. Bernard Commandery of Knights Templar of Chicago is in Colorado, and will start west from there to-morrow night.

The bears broke stocks badly in the New York market to-day. Stanton, a stock-broker, says the trouble can be traced directly to Jay Gould.

It is stated that the Port intends to transfer the negotiations in relation to a treaty of commerce with America, from Constantinople to Washington.

The issue of standard silver dollars from the mints for the week ending August 11th was \$30,750; the corresponding period last year was \$19,100.

While a lineman of the Western Union Telegraph Company, was up a pole repairing wires, yesterday morning, near Scranton, Pennsylvania, three rifle-shots were fired at him, two of which whistled close by his head.

### EASTERN DISPATCHES.

#### [PRESS DISPATCHES TO THE GAZETTE.]

##### A United States Senator's Wife Suicides by Drowning.

DUBUQUE, Ia., August 13.

The wife of United States Senator W. B. Allison committed suicide by drowning herself in the Mississippi river some time during last night. She left home yesterday afternoon shortly after 1 o'clock, informing her servant she was going to one of her neighbors; instead, however, taking her gossamer under her arm, she went in the opposite direction, toward the country, where she has been accustomed to take almost daily walks. It was ascertained she wandered around the outskirts of the city, and during the afternoon she was seen by several persons walking rapidly and apparently very much excited. Not returning by 9 o'clock, from the place she was supposed to be, the alarm was given, and a search instituted and maintained throughout the night. This morning her body was discovered by an outgoing train, at 7 o'clock, in the river, about a mile below the city.

She had cut up her gossamer, placed some stones in it and tied them securely about her neck; she then deliberately walked into the river about 35 feet from the bank and laid down and was drowned where the water was only two feet and a half deep. Mrs. Allison was of a highly nervous temperament, and for the past two or three years has suffered from, and has been treated for, a mental disease. She attempted suicide in about the same manner once before, but was rescued. She was a niece and the adopted daughter of the late Senator Grimes of Iowa, and has been married for ten years, but had no children. Senator Allison had opened the campaign at Clarinda, and yesterday was sent him last night as soon as his disappearance became known, but it is thought it did not reach him until this morning. The shocking event has thrown a gloom over the entire community.

##### An Atlanta Hotel Burned.

ATLANTA, Ga., August 12.

The Kimball House is burned. The fire originated in the rear of the building, which was favorable to escape. Within 20 minutes the hotel was emptied of the guests, and within an hour the whole structure was burned to the ground. The hotel was built by H. D. Kimball, and owned by Robert Toombs, John Rice, Joseph P. Thompson and others. It cost \$600,000, and the furniture \$125,000. The insurance was only \$80,000, among many companies. The Gal City National Bank, Harrelson & Bro., tobacco; John B. Daniels, drugs, and others are among the losses. The total loss is \$1,000,000; insurance, \$20,000. The fire is claimed to be incendiary.

The reason the owners carried so little insurance was because of the high rate charged. The Kimball House was considered the worst risk in the city.

##### A Railroad Party—Chicago Socialists.

CHICAGO, Aug. 12.

General J. H. Deveraux and other officials of the Vanderbilt system arrived here to-day from the southwest. Members of the party acknowledged their visit was made with a view of ascertaining the advisability of establishing a road from St. Louis to Kansas City and Omaha, but that nothing definite had been determined upon.

The Socialists held a picnic at Ogden Grove to-day which was attended by fully 10,000 people. There was a parade and a display of banners and flags but no speaking.

##### The Coming Mill.

KANSAS CITY, Aug. 13.

Slade, the Maori, with his trainer, arrived from New York to-day. Mitchell and party came in from Denver. Slade and Mitchell will at once go into active training for their coming match, the time for which has been changed from September 15th to Oct. 11th, to be held within 20 miles of this city or Omaha.

##### A FALSE REPORT.

Adjutant-General Kelton, who was interviewed by the *Examiner*, says there is no truth in the statement that the War Department has a scheme on hand to mobilize the militia, in anticipation of labor troubles, or difficulties with Mexico. Respecting the possibility of another Apache outbreak, the General says no information had been received.

##### Cardinal Manning Interviewed.

NEW YORK, Aug. 13.

The *Herald* prints this morning, an interview with Cardinal Manning; his general view of Ireland is hopeful. He professes affection for that country and believes that the relation of landlords and tenants have improved and that agrarian agitation has been laid at rest. He looks for reforms that shall benefit the laborers.

##### The Presidential Party.

CAMP VERTE, Wyo., Aug. 12.

The day so far, since leaving Camp Hollings at Bull Lake Fork this morning at 7 o'clock, has been very uneven-

ful. The President and all the members of the party are in excellent health and spirits. The country traveled over to-day has been mostly sage-brush mesas, varied by alternate ascents and descents of steep hills covered with loose stones, which made it precarious footing for the animals. All along the route the glorious Wind river and Owl Creek mountains, with their snow-clad peaks, are in sight and afford respite to the eyes of travelers who are pursuing their way across the dried and heated mesas below. The camp on Spring creek, however, is a very delightful one—on pleasant ground, with plenty of the essential requirements of good camping places, wood, water and grass. To the eastward of us is the Crow Heart butte, which is a noted landmark of the Wind River valley, and the photographer has obtained several pictures. This dispatch has to leave by couriers at 3 o'clock this afternoon, so no reports can be made to-day of the results obtained by the fishermen. The camp is named Camp Vest, in honor of Senator G. G. Vest, who is one of the most enthusiastic and successful anglers of the party. After my dispatch of yesterday from Bull Lake Fork, both the President and Senator Vest brought into camp five creels full of trout as the result of their afternoon sport. There are no special or professional correspondents with the party and all dispatches purporting to be from such persons are spurious.

##### The Strikers and Their Wages.

NEW YORK, August 13.

The sub-committee of the United States Senate committee met in New York to-day. Master Workman, John Campbell of Pittsburgh, was the first witness. He said the whole membership of the Brotherhood in the United States and Canada is about 22,000; that the object of the strike is to bring the wages back to what they were before the reduction. That the average now is \$54 for commercial and \$49 for railroad operators per month. The former wages were reduced from 35 to 40 per cent. The wages in many cases are not enough to live upon, being in some localities below what common laborers receive. There has been no corresponding reduction in the tariff charges by the Company. Campbell recited the history of the strike since it commenced, and said while the work of the operators had been increased, the wages had been lowered.

##### More Wire Cutting.

### FOREIGN DISPATCHES.

#### [PRESS DISPATCHES TO THE GAZETTE.]

##### The Spanish Insurrection.

MADRID, August 13.

General Martinez Camper, Minister of War, to-day informed the Cabinet that four rebel sergeants had been shot at Santa Domingo. The King tomorrow will review the Madrid garrison, numbering 12,000 men. His proposed visit to Germany has been indefinitely postponed. It is rumored that the Ministry will change when the revolts have been entirely suppressed. General Lacuesta has arrived at Seville Urzel with the loyal troops. The Insurgent bands, numbering 14 and 25 men respectively, appeared at Lurajana and Barcaciona to-day. They are now being actively pursued by the troops.

##### A Meeting at the Vatican.

LONDON, August 13.

A London correspondent of the *Manchester Guardian* says the chief prelates of the Roman Catholic Church in Europe and America, will assemble at the Vatican November next, as the Pope wishes to consult them as to the means of maintaining friendly relations with all powers.

##### Republicanism in France.

PARIS, August 13.

The return thus far received of the election yesterday for members of the Council General show a net Republican gain of 63.

## NOTICES.

How about the State Fair? Over 200 emigrants passed west yesterday.

G. Wedekind, the piano tuner, has something to say in the 50-cent column.

Mrs. Wright has a choice lot of tulip bulbs for sale. See 50-cent column.

Writing tablets at Nasty's. Thermometer at 7, 9, 11° 1, 3—64, 72, 77, 82, 83.

C. S. Martin advertises for sale a block of land in the Western Addition. See 50-cent column.

Attention is called to the ad. in the 50 cent column of W. L. Needham, the oldest furniture dealer in Reno.

There were two Pullman drawing-room cars, the Menlo and the Veljo, on the east-bound express this morning.

Attention is called to the notice in the 50 cent column of C. W. Cunningham's, who has household furniture to sell.

Another car of round timber, to be used as piling in the construction of a dam near Lovelock, passed east Saturday evening.

The trade of Painter & Bakeshaw shows what No. 1 goods and close attention to business will do. Goods delivered to and part of the town.

The east-bound express arrived in two sections yesterday; the first was comprised of empty sleepers for the coming Knights Templar.

There is a prospect that the charred ruins of the "Coats Tavern" will soon give place to a new structure; as several men are busy clearing away the rubbish.

None who ever stops with Perkins & White at the Palace Hotel once fails to patronize them the next time they are in town. The Palace people know how to keep hotel.

From the large amount of heavy timber going east, somebody must be building some bridges. Several chords, from 60 to 80 feet long, for a Howe truss were noticed in the lot.

Levy & Bro. on Virginia street are constantly receiving the latest styles of all goods to be found in any dry-goods store in Nevada, which they are able to sell a little lower than anybody.

E. C. Landbitter has a better stock of all kinds of California fruit, catchetives and melons, than has ever been seen in Reno. Everything in his place is fresh from the tree and the vine.

No better assortment of family groceries can be found anywhere than is kept by J. K. Everett, corner Second and Sierra streets. Also glass and crockeryware as well as farming utensils of the lightest and latest styles.

San Francisco dealers who frequently visit Reno never fail to express surprise to find so extensive a store as A. Lindley & Co.'s on this side of the mountains. San Francisco does not contain so large a grocery store.

**Not so Bad.**  
If any other town in the State had as much going on as Virginia City they wouldn't squeal a bit. Captain Canavan said yesterday that since quicksilver had fallen from a dollar and a half a pound to 40 cents it made quite a difference in milling low grade ore and with other things economized on a little he expected to see 2,000 men kept at work there for years to come in the upper portions of the ledge.

**Humboldt Crops.**  
E. W. Crutcher tells the Silver State that everybody in Paradise Valley is either making hay or harvesting grain. He will stack some sixteen or seventeen tons of hay, and others will put up proportionate quantities. The grain crop is better than the average, and farmers say it is the hottest season ever experienced in the valley.

**Hot and Cold.**  
The 60 days of hot weather experienced this summer is conceded to have been the longest spell of uncomfortably warm weather ever known in this locality. The present indications are, however, that we may soon expect frost, the last two or three nights having necessitated the use of an extra pair of blankets.

**Six and small Agree.**  
Mrs. Mary E. Billings of New-port, Ind., says that her little boy, Eddie, was helpless from rheumatism, and a few applications of the great pain-killer, St. Jacobs Oil, cured him.

**Summer in the Mountains.**  
It was cold enough for a fire at Truckee yesterday morning, and the brakemen had to build one in the cars. The ground was white with frost.

**A Justice for Tom.**  
J. H. Norman, Justice of the Peace, of Verdi, will assume the judicial functions temporarily laid off by Judge Young, who left this morning for a short visit to San Francisco, where he has gone on business.

**Bid Away From Home.**  
Last evening Mrs. G. W. H. Buddeau of this place received a telegram from the Coroner at Weaverville, Trinity county, California, that her husband died at that place and was buried yesterday.

## CARMELIAN SPRINGS.

A Beautiful Place of Resort—Where to go to Enjoy a Visit to Lake Tahoe.

One of the pleasantest places of resort on the shores of Lake Tahoe is at Carmelian Hot Springs, at the Northwest end of that beautiful sheet of water. Since A. A. Bayley assumed the management of the property it has become a favorite place. There are many attractions at Hot Springs that other points are deprived of. Here you can enjoy the hot steam sulphur plunge and tub baths. Surf bathing is very enjoyable at Hot Springs, too.

Captain Matt Canavan of Virginia went below yesterday.

Dan Abel, formerly of the Carson Mint, was in town last evening.

Judge Young of the Justice Court left for the windy west this morning.

Prof. Grey, principle of the Virginia High School, is in town today.

Hon. Hank Knight, the drummer, arrived from the South yesterday.

General R. M. Clarke came down from Carson on Saturday's evening train.

J. C. Campbell, wife and boy of Carson are stopping at the Palace Hotel.

Superintendent Patton of the Comstock went to California yesterday.

Mme. Helena Modjeska, the celebrated actress, and her husband are at Lake Tahoe.

Warden Bell of the State Prison was in town yesterday, visiting relatives and friends.

Captain W. J. Cowan of the Carson Mint was in town this morning, on his way to the Bay.

Mr. Godshaw, of the firm of Godshaw & Brandenbush, cattle dealers, was in town yesterday.

W. T. Hanford and wife came down from Carson last evening, on a visit to Reno relatives and friends.

R. J. Laws, superintendent of construction on the C. & C., was a passenger for California yesterday morning.

Hon. S. W. Chubbuck of Gold Hill and family went below to-day, where they will remain until after the Conclave.

Jack Hutchinson, the genial engineer of the V. & T., left for San Francisco to-day, to be present at the Conclave.

Henry Myer of Carson accompanied his wife and babes, who went to California, as far as Reno this morning.

Mrs. E. Dixon and daughter, Mrs. Dr. F. J. White of Carson, took the west-bound train yesterday morning for California.

Evan Williams, superintendent of the Morgan Mill, met his family, who have been to California, at Reno yesterday morning.

W. T. Preddy and family of Carson went below yesterday morning, where they will remain until after the meeting of the Conclave.

Misses Lottie Pierce of Wellington Station and Grace Dowdell of Carson were passengers for San Francisco on this morning's express.

B. F. Bobo and wife go below on Wednesday, and will make quite a stay in California, visiting Bartlett Spring and other places for Mr. Bobo's health.

Senator John B. Gallagher of Esmeralda county returned from Wisconsin yesterday, where he has been on a visit for the last two months to the scenes of early life.

Hon. C. C. Stevenson and wife of Gold Hill returned yesterday from Webster Lake, where they have been keeping cool for the last two weeks. Mr. S. reports large quantities of butter having been made in the summit valleys of the Sierras this Summer.

**A Cheap House.**  
That house noticed in the Gazette some time ago as having been purchased by W. H. Haynes at Virginia City for \$200, is nearly completed, the chimneys having been built last week. The structure is 30x30 feet, two stories high, eleven feet between joists and the material is of redwood. Mr. H. informed a GAZETTE reporter that the house would not cost to exceed \$900; less than a third of what it would cost to have bought the material new. As Mr. Haynes is a bachelor, his neighbors have a suspicion that the new house means something more than a single man's domicile.

**New Sleepers.**  
Pullman has begun to turn out from the Sacramento shops the repaired and repainted sleepers he bought from the C. P. and S. P. roads, and they are virtually new sleepers. The old straw color is retained on the outside, but inside everything has been changed. The Coloma and Alameda went east yesterday. They have heavy black walnut seats and panels, and all the wood-work is of the same kind. Bound edge plate-glass mirrors abound, and the closets and smoking-rooms are very nice, but there are no buffet fixtures or places to cook or make coffee.

**Foreign Scientists Coming.**  
The Carson people are expecting a large number of European scientists sometime between this and Christmas, to examine the wonders of the State Prison quarry. Should the wise men from England, France and Germany conclude with Dr. Harkness that the big tracks were made by Nobe Jellison, Farmer Treadway, and other early settlers, they will not be likely to feel very well satisfied with their trip.

**Petrolia's Growing.**  
Petrolia, of Unionville, is building a frame and adobe house at Lovelock's for a hotel and restaurant.

**Uncle Sam's Men.**  
Sergeant Shew, from Jefferson Barracks, St. Louis, arrived yesterday morning with 15 recruits for Company "G," First Cavalry, stationed at Fort Bidwell.

**Lovelock's Growing.**  
Petrolia's growing.

**Last evening Mrs. G. W. H. Buddeau of this place received a telegram from the Coroner at Weaverville, Trinity county, California, that her husband died at that place and was buried yesterday.**

## MINISTER DAGGETT AT HOME.

Hon. R. M. Daggett, U. S. Minister Plenipotentiary to Hawaii came up from San Francisco this morning on a visit to the Comstock. Mr.

Daggett looks as slick as an Alaska seal, and says the tropical climate of the Sandwich Islands agree with him. He has no complaint to make about over work, and says the duties of his important mission are not at all arduous. He speaks in the kindest manner of King Kalakaua, and says their business relations thus far have been very pleasant.

He says it is very doubtful whether the King will visit this country this season or not. Mr.

Daggett will spend two or three weeks in this part of the State before his return. His visit at this time is supposed to have some political significance.

MOWERS, REAPERS, FARMING IMPLEMENTS.

With all the appliances of a stock and grain farm to be included in the sale.

The Whole Ranch Comprising One Hundred and Six Thousand Acres.

CONTROLLING TWO HUNDRED AND FIFTY THOUSAND ACRES.

THE CLOVER VALLEY RANCH, OR, as it is sometimes known, "The Iron Point Stock and Grain Ranch," Nevada, has been divided into six thousand acres of land, now offered for sale upon terms which represent a liberal concession to the purchaser, and offers high inducements in the way of return, permanent and otherwise.

With this ranch will be sold four thousand head of stock cattle, now in splendid condition, embracing thoroughbreds, Durhams, and other breeds, purchased at a cost of six hundred dollars each. The entire herd is composed of grades produced by crossing the best American bulls with the very best thoroughbred mares in the country. There are no tubercular animals in the herd; no Spanish cattle or crosses from Spanish cattle. These ranches embrace one hundred and six thousand acres of land, which will produce about five thousand tons of hay per annum. There are two hundred and forty acres of fine alfalfa under irrigation, capable of producing five tons per acre. Alfalfa, 28,000 acres per annum. Twenty-eight thousand acres of this ranch is now under fence, redwood posts set sixteen feet apart, with iron barbed wire, and a fence, with four barbed wires, which will protect the land from the range. The range consists of one good one story and a half house, with four rooms, a stone cellar, and some dairy house, well built. Home barn forty by one-hundred, with stallions, and a stable for horses. There is a system of living water running through the ranch; also, an excellent well of water with two or three springs. Inside the inclosure there are about twenty-five hundred inches of water, sufficient to irrigate twenty-five hundred acres of land which the range now occupies. There is a good well of water, and a large abundance of trout. About four hundred acres of this small ranch is under fence. The vendors of these ranches own and control the same, and have the right to sell the same of two hundred and forty thousand acres of land for grazing. There is sufficient water to irrigate twenty-four thousand acres in the lower ranch, and seven thousand acres in the upper, making a total of forty-four thousand acres.

The sale will include eighty-four head of good American horses, fifty of which are large fine mares, and the remainder are saddle horses, well trained for racing, driving, and well-broken work horses; also, there will be included in this sale grain headers, eight mowing machines, thresher, and other implements necessary to run this ranch.

Six years ago this ranch maintained throughout the year about forty thousand head of cattle. This year, however, by sale of cattle, and other stock were sold, the owners of this ranch selling twelve thousand head. After a rest of six years the range was recuperated and is now as good as when it was first put up. The number of cattle now offered for sale are the progeny of well-selected cows from the best dairy herds in California and Nevada. They have increased to about one thousand head annually. Eight hundred calves will be produced in 1885, and estimating upon the basis of the past experience of "increase the herd of 1884 will exceed that number by one thousand head." The range is now twenty-five thousand head, and the present herd may be increased to that number without exceeding the range that can be supported to be sold.

The Clover Valley ranch embraces Township 38 north, ranges 41, 42, 43, 44, east; township 37 north, ranges 43, 44, 45, east; township 36 north, ranges 42, 43, east; township 35 north, range 43, east.

This ranch is upon properties from the United States, and one hundred and six thousand acres of land, commanding about one hundred fifty thousand and additional acres, to which the ownership of the land now offered for sale is a perfect key. The price of which is a property is estimated to be worth four hundred and twenty-eight thousand dollars.

The whole is offered for three hundred thousand dollars, of which one hundred thousand dollars, or the amount, must be paid in cash, one hundred and twenty-five thousand dollars in five years. Deferred payment to bear seven percent interest per annum.

The cattle and horses will be sold by actual count. If the herd fall short of four thousand head of cattle, or eighty-four head of horses, a pro rata amount for the difference will be deducted from the total price above.

Reference is had to ALVARO EVANS, capitalist, of Reno, and R. L. SULTON, Reno Gazette, Reno, for verification of these prices, and for all above. Information of the stock, lands and other property is solicited.
